Attorney Docket: STD 1748

RESPONSE TO NOTICE OF NON-COMPLIANT AMENDMENT (37 CFR 1.121)

Director of the Patent and Trademark Office
Washington D.C. 20231

Dear Sir:

This document is filed responsive to a Notice of Non-Compliant Amendment (37 CFR 1.121) mailed September 27, 2001, with a one-month or thirty-day response period.

The Notice states that it was sent in response to the amendment filed for the above-referenced patent application on September 20, 2001, wherein the Legal Instruments Examiner states, "The amendment does not include a marked-up version of the replacement paragraph(s)/sections(s)." However, the document, "Amendment A—Changes Marked to Claims as Originally Filed," was filed concurrently with "Amendment A" and mailed by the Applicant on September 14, 2001.

The Applicant herewith submits a copy of the return-receipt postcard received by the Applicant with the indicia of the U.S. Patent and Trademark Office, dated September 20, 2001. Therein, the postcard lists “Amendment A—Changes Marked to Claims as Originally Filed” as among those documents transmitted concurrently with “Amendment A.”

The Applicant also herewith submits a copy of "Amendment A—Changes Marked to Claims as Originally Filed," as originally mailed by the Applicant on September 14, 2001, concurrently with "Amendment A," and respectfully requests that the Examiner consider the aforementioned amendment for the above-referenced patent application compliant with 37 CFR 1.21, as it was submitted in the required format.

True copies of the following are filed herewith:

(X) Return-receipt postcard (1 page) with the indicia of the U.S. Patent and Trademark Office, dated September 20, 2001.

(X) "Amendment A—Changes Marked to Claims as Originally Filed," (2 pages) filed concurrently with "Amendment A" and mailed by the Applicant on September 14, 2001.

STATEMENT OF AUTHENTICITY

I, Elise L. Corrado, am not registered to practice before the United States Patent and Trademark Office, and do hereby certify that all of the above-referenced documents are true copies of the originals as filed.

Elise L. Corrado

AMENDMENT A--CHANGES MARKED TO CLAIMS AS ORIGINALLY FILED

25. (Amended) A method of integrating data into a predefined source; to create a customized presentation, the method comprising:

providing user data;

providing a predefined source, wherein the source comprises audiovisual program content and other program data; comprising at least one of and a plurality of story-lines, and a plurality of characters;

selecting at least one of a portion of the audiovisual program content as a selected portion for associative integration of the user data and a portion of the program data as a selected portion for utilization in creating the customized presentation; ~~responsive to the other program data as a selected portion for user data associative integration;~~

~~integrating the user data with the selected portion responsive to the other program data;~~ and of the audiovisual program content; and

providing a modified output content of the customized presentation in an audiovisual format responsive to the associating and integrating the user data is associated into the selected portion of the audiovisual program content; and responsive to the selected portion of the program data.

COPY

28. (Amended) The method as in claim 25, wherein the user data additionally comprises a plurality of user images, the method further comprising:

selecting at least one of the plurality of user images for selective integration into the modified output content, responsive to the ~~other~~ program data.

35. (Amended) A system for integrating data into a predefined source to create a customized presentation, the system comprising:

a source of user data;

a source of program content, wherein the program content comprises audiovisual program content and ~~other~~ program data; comprising at least one of a plurality of story-lines and a plurality of characters;

selection means, coupled to the source of program content, providing for selection of a selected portion of the audiovisual program content ~~responsive to the other program data;~~

additional selection means for selecting at least a portion of the program data as a selected portion of the program data;

integration means, coupled to the selection means, the source of program content, the additional selection means and the source of user data, for providing an integrated modified output of the customized presentation content wherein the user data is integrated into the selected portion of the ~~output~~ content, and wherein the ~~output content is provided in a format suitable as a source of program content.~~ program data is utilized to create the customized presentation.

37. The system as in claim 35, wherein the user data additionally comprises a plurality of user images, and wherein the integration means additionally comprises means to selectively integrate ones of the plurality of the user images responsive to the ~~other~~ program data into the modified output content.
